**RESPONSE TO RESTRICTION REQUIREMENT  
DATED NOVEMBER 1, 2006**

Commissioner for Patents  
P. O. Box 1450  
Alexandria, VA 22313-1450

Sir:

This paper is submitted in response to the Restriction Requirement dated November 1, 2006, for which the date for response is December 1, 2006.

It is believed that no fee is due; however, should any fees under 37 C.F.R. §§ 1.16 to 1.21 be required for any reason relating to this document, the Director is authorized to deduct said fees from Williams, Morgan & Amerson, P.C. Deposit Account No. 50-0786/4451.003300RE.

In the Restriction Requirement, the Examiner stated restriction was required to one of three inventions:

<b>Group</b>	<b>Claims</b>	<b>Directed to</b>
I	1-9	Method of administering a therapeutic molecule comprising an effective amount of amphifullerene liposome
II	10-14	Amphifullerene liposome
III	15-16	Method of forming an amphifullerene liposome

In response to the restriction requirement, Applicants elect Group II, claims 10-14, without traverse.

The Examiner also required election of species relating to functional groups (claims 2 and 11), diagnostic molecules (claims 5 and 12), and formation of amphifullerene liposomes (claims 15 and 16). Applicants elect the species of tissue recognition moieties of claim 11 and CT contrast agents of claim 12. Applicants submit an election of a species of formation of amphifullerene liposomes is not required at this time because claims 15 and 16 are drawn to an invention withdrawn from consideration by the response to the restriction requirement presented above.

The Examiner is invited to contact the undersigned patent agent at (713) 934-4065 with any questions, comments or suggestions relating to the referenced patent application.

Respectfully submitted,

WILLIAMS, MORGAN & AMERSON, P.C.
